

SCIENCE OLYMPIAD

SAVE THE DATE!!!
THURSDAY, MARCH 30th

Parents, once again we are holding our Science Olympiad for students in grades 5th-8th. This is a one-day event that has teams of kids working together to solve science problems and have lots of fun! We are hoping you can block out some time to help us. This event requires a large number of volunteers to run the activities. This is a very special day and by volunteering you will be able to see our students in action. You will see how creative, ingenious, smart our kids are while problem solving, learning & having fun!

Please consider blocking off a few hours (or the whole day!) to help us with this event. Any parent can volunteer, even if you are the parent of younger students.

You can sign up to work on Thursday, March 30th by emailing Sheila Tarter at tarterfamily@me.com or calling/texting (618)920-9469.

In the meantime, please save and send in the following:

2 liter bottles	bubble wrap
styrofoam meat trays	plastic milk jugs & orange juice jugs
12 pack soda boxes	aluminum bread loaf or pie pans
plastic food containers	Pringles cans
old CDs	water bottles
any plastic cups	

Please rinse these items & drop in the tub near the office. Thank you!
